PUBLIC NOTICE

CITY OF LEAVENWORTH

DEVELOPMENT SERVICES DEPARTMENT

The Leavenworth City Council, Planning Commission and City staff invites you to a public forum scheduled for June 4, 2015 at 6:30 p.m. in the Festhalle. The forum is designed to provide residents of the City and residents within the City's Urban Growth Area the opportunity to participate in a detailed presentation about the City's development of a Regional Stormwater/Wetland Management Master Plan. The City and their consultants are also seeking property history, input and feedback regarding the properties within the project area with regard to stormwater management, groundwater, wetlands and streams. This forum is the first of several public forums meant to keep the public up-to-date regarding the progress being made developing this Plan. It is especially important that we hear from those with vested interest in this study area, so your attendance is highly encouraged. We look forward to seeing you.

Nathan Pate
Development Services Manager
