

# Sign Samples and Examples

visually depicting differing classifications  
and sign types

# Introduction

- The purpose of the information within the slide show is to provide examples and samples depicting signs by classification and definition in an effort to have a common understanding of terms, definitions, and classifications (“being on the same page”)
- Provide for open discussions and dialogue
- The signs depicted herein may not be fully compliant with current Code regulations, including but not limited to size, placement, lighting, valid permitting, and other features. These examples do not imply vested status
