

**City of Leavenworth Request for Proposals Purchase of  
Advanced Metering Infrastructure (AMI) System  
RFI Request  
Additional Question/Answers  
March 11, 2020**

1. Will the City show the contractor where all Commercial meters are located in the buildings where the meters are inside? **The City will assist in this process.**
2. Are you replacing the meters on the fire detection systems? **Fire taps are not metered.**
3. What is the expected procedure for notifying commercial customers and what time during the day do you expect the contractor will have access to the commercial meters? **48 hours prior notice (post cards or door hangers) with access generally between 7 – 10:30 AM or as arranged.**
4. Will the meter route notes show where the meter box is located on the residential property? Example front right corner by the pine tree etc.? If not, is the City going to mark the locations for the meters so they will be easy to find. **The route notes describe meter locations.**
