

I would prefer to see the outdoor splash pad @ the Osborne site.

I think the city should continue to consider the Osborne location as the location for the indoor pool.

Please no fancy features making this
cost so much. Just a pool all
year. no silly slides -

for kids to learn, seniors to
exercise, swim team

A sidewalk to connect Cascade Vet
to Sage Mountain Natural Foods. Only
 $\frac{1}{2}$ block. Very dangerous now,
especially in winter.

Thank you for plowing the sidewalks
on the Bridge on Hwy 2!

A sidewalk is needed for safety at Cascade
High school. (Current walk ends at driveway)
More bike parking - and have some
that is under cover for employees!

Site is too small to accommodate a project like this.

Pool/Lion's club park is the only green space on this side of the highway - don't take it away!

Not enough space for parking.

2019 and 2021 Recreation Needs Assessments said walking paths were the highest priority. We need (over)

Please do not grow this project at the loss of green space & trees.

What is the plan for the gazebo @ Lion's Club Park? How will this project impact that space?

PRSA Aquatic Rec. Survey.

#1. - Having the design contractor design the survey is self serving. All the surveys I have seen seem to push the respondent to the answers the survey designers desire. These surveys need to be conducted by an impartial 3rd party to be valid.

2. Parking is obviously a large concern. How will the anticipated additional use be accommodated. It is difficult to park on a busy summer day already.
3. Lions Club Park seems to be constantly shrinking. The Natatorium design as

presented takes a good sized bit out of the green space that adds a welcome respite from the city center hub.

4. Cost, cost, cost! Definitely not willing to pay more in property taxes for another tourist attraction!

Considerations will the "sports complex" + MCA facility in Wenatchee - Will they complement or compete?

- 1) tough economic times so poor timing for \$\$\$ pool project
- 2) loss of green space
- 3) no increase in parking (which is already a big problem)
- 4) but it's beautiful + fun if we had magic money
- 5) year-round pool would be great, especially if schools cooperated with classes for all our school-age kids - real good safety skill
- 6) Yes, I would use a year-round pool for senior water exercise - but can we afford it?

For the pool:

- * swim team is important to keep, so competitive size pool
- * kids area somewhat separate
- * don't need hot tubs
- * offer good paying jobs to maintain hours / retain employees
- * less fancy stuff, stick to basic offerings to be realistic.

NO TAXING LOCALS

FOR THIS

I really want to
make sure there
is still an
outdoor lap pool

Thanks!

Plus I want a new
facility in addition
to our current outdoor
pool

Indoor hot tub
would be good also.
Outdoor stuff has
limited months of
the year when they
can be used.

Consider cost vs use
of outside stuff.
And put hot tub
inside.

Would love if the rec.
center could also be a
community building - space
for ^(fitness, art, music, etc) lessons, local art gallery,
self-defense, maybe a rotating museum.

RE: NEW POOL PROPOSAL:

IF I LIVED IN SEATTLE OR SIMILAR CITY, I WOULD FEEL FORTUNATE TO HAVE A YEAR-ROUND POOL WITHIN 30 MINUTES OF MY HOUSE.

YEAR ROUND POOLS IN WENATCHEE ARE ROUGHLY 30 MINUTES FROM MY HOUSE IN DOWNTOWN LEAVENWORTH. THUS, A YEAR-ROUND POOL IN LEAVENWORTH SEEMS UNNECESSARY. - ALSO WORTH NOTING:
att →

PROPOSED DEVELOPMENTS APPEAR TO BE
LARGER THAN THE SPACE FOR WHICH THEY
ARE PROPOSED ?!?!?
