5:45-6:10 RH2 – Municipal Water Source Replacement Feasibility Study Update

This time is for the City Council to receive an update from RH2 Engineering (RH2) on the City's Municipal Water Source Replacement Feasibility Study. RH2 has been working on this project for approximately one year. The intent of the project is to evaluate the feasibility of transferring the City's surface water rights to groundwater to determine if a second well site in lieu of the water treatment plant is possible.

This project is 100% funded by the Icicle Work Group (IWG). This IWG-funded project is part of a set of early action items intended to kickstart the long-range modernization program associated with the City's municipal water conservation program. Other early action items funded by the IWG include:

- Leak detection survey (work completed in October 2022);
- Water utility rate study (underway); and
- Conservation and Drought Plan (drafted by RH2).

The following item is included under **TAB C.**

- Municipal Water Source Replacement Feasibility Study Presentation

6:10-6:40 Noise Ordinance and Nuisance Noise Discussion

This time was requested by the Council to review the current noise ordinance and to discuss the issues of nuisance noise and having a later start time for construction in residential areas on holidays. City Attorney Nikki Thompson will be in attendance to lead this discussion.

The following items are included under **TAB D**.

- LMC 8.08 Offensive Noises and Odors
- LMC 9.33 Public Disturbance Noise Regulations
- LMC 9.34 Disorderly Conduct

6:40-6:50 **Council Updates/Suggestions for Future Agenda Items**
