## **Subject: How the Upcoming Front Street Improvements will affect Your SUP this Spring**

Hello!

**We are writing to inform you about an important construction project that will soon take place along Front Street.** This project will affect your special use permit (SUP) with the City of Leavenworth. We will be improving the pavement and sections of concrete roadway along Front Street from US Hwy 2 (Gustav's) to 10<sup>th</sup> Street (Icicle Brewery). This project is currently out to bid, with construction anticipated to occur between Monday, May 18, and Friday, May 29.

Project work primarily includes, and is not necessarily limited to, replacing the concrete 'dance floor' in front of the gazebo, crosswalk and sidewalk repairs, fixing the 'wavy' bricks, and seal coating Front Street. To minimize the impacts of this project, the contractor will be required to perform work that requires major roadway closures midweek between 7:00 AM and 6:00 PM. The project aims to repair potential trip hazards and the overall condition of the existing roadway.

At this time, we do not anticipate needing to clear Front Street (curb to curb) for more than a few consecutive days for seal coating and associated repair efforts. This work will occur midweek, and we are making every effort to keep your SUP in place over the holiday weekend. Permit holders will be reimbursed for the number of days your SUP is displaced from the City's right-of-way for the work to occur.

Temporary and intermittent road closures along Front Street and associated intersections will occur during construction. When traffic control measures are in place, no vehicular access will be permitted. Planned road closure information will be available on the project's webpage after a contractor is officially under contract. For more information, please visit [cityofleavenworth.com/projects](http://cityofleavenworth.com/projects).

**We will reach out when we have more information and confirmed closure dates.** In the meantime, if you have additional questions, please email our City Engineer, Brantley Bain, at [bbain@cityofleavenworth.com](mailto:bbain@cityofleavenworth.com). We understand the inconvenience this may cause and appreciate your understanding as we work to improve Front Street.

Thank you for being a valued part of our downtown and this community!

Sincerely,

**City of Leavenworth**
